Professional Summary

Azure Data Engineer with **3.9 years of experience** at Cognizant, specializing in building, optimizing, and modernizing enterprise cloud data pipelines on **Azure Databricks**, **PySpark**, and **Delta Lake**. Direct biopharma client experience (Amgen) engineering master data pipelines, entity deduplication for **Healthcare Professionals (HCPs)** and **Healthcare Organizations (HCOs)** using Informatica MDM, and migrating 40+ legacy workflows to Databricks Medallion Lakehouses. Certified in Databricks Data Engineering and Microsoft Power BI. Currently serving official notice period with immediate 30-day joining availability.

Technical Skills

Lakehouse & Big Data: Azure Databricks, Apache Spark, PySpark, Spark SQL, Delta Lake (Bronze/Silver/Gold), Auto Loader, Unity Catalog
Cloud & Orchestration: Azure Data Lake Storage Gen2 (ADLS Gen2), Azure Data Factory (ADF), Apache Airflow (Python DAGs), AWS (S3, EC2)
Master Data & Governance: Informatica MDM (Match/Merge, Trust Scores, Golden Records), HCP/HCO Master Data, GxP Lineage, RBAC
Programming & Query: Python, PySpark, SQL (Databricks SQL, PostgreSQL, Oracle, T-SQL), Shell Scripting
Analytics & DevOps: Microsoft Power BI (DAX, Star Schema Modeling), Git, GitHub, Azure DevOps CI/CD, Agile/Scrum

Professional Experience

Cognizant Technology Solutions — Chennai / Hyderabad, India
Associate - Azure Data Engineer (Client: Amgen - Global Biopharma) — *Oct 2025 – Present*

- **Accelerated pipeline execution by 40%** and reduced compute spend by **~30%** by migrating 40+ legacy Informatica PowerCenter workflows to Azure Databricks Delta Lake and PySpark with 100% verified data parity.
- **Engineered scalable Medallion Lakehouse pipelines** across Bronze, Silver, and Gold tiers, ingesting multi-source transaction feeds via Databricks Auto Loader (`cloudFiles`) with automated schema evolution and validation controls.
- **Sustained 99.8% pipeline SLA uptime** by authoring modular Python Apache Airflow DAGs with automated retries, error isolation, and operational alerting across ADLS Gen2 storage tiers.
- **Enforced GxP audit compliance** by implementing Databricks Unity Catalog for centralized data governance, table and column-level access control (RBAC), and end-to-end data lineage tracking.

Cognizant Technology Solutions — Chennai, India
Programming Analyst - Data Engineer (Client: Amgen - Biopharma MDM) — *Feb 2024 – Oct 2025*

- **Eliminated ~15% duplicate entities** across global HCP and HCO master data by tuning Informatica MDM match-and-merge rule sets, survivorship logic, and trust scores to generate unified golden records for commercial and transparency reporting.
- **Automated daily multi-source data ingestion** into ADLS Gen2 using Azure Data Factory (ADF) pipelines and custom PySpark cleaning scripts, handling scheduled file deliveries with automated error notification.
- **Built 6+ interactive Power BI dashboards** with optimized DAX calculations and star-schema dimensional models, enabling executive stakeholders to track key commercial operational metrics.
- **Optimized query latency by 25%** by conducting SQL profiling, creating appropriate partition keys, and tuning broadcast joins across large analytical tables.

Cognizant Technology Solutions — Chennai, India
Programmer Analyst Trainee & GenC Intern — *Feb 2022 – Mar 2024*

- **Automated daily data extraction routines** using SQL scripts and shell automation to feed downstream analytics tables, reducing manual intervention across production batches.
- **Authored comprehensive technical documentation**, including source-to-target mapping sheets, data validation test suites, and data dictionary catalogs for enterprise reporting feeds.

Verified Licenses & Certifications

Databricks Certified Data Engineer Associate | Databricks (Cred ID: 185421754 | Exp: Jun 2028)
Microsoft Certified: Power BI Data Analyst Associate (PL-300) | Microsoft
Microsoft Certified: Power Platform Fundamentals (PL-900) | Microsoft
SQL for Data Science | UC Davis / Coursera | **Data Modeling in Power BI** | Coursera

Education

Saveetha Engineering College — Chennai, Tamil Nadu, India
Bachelor of Engineering (B.E.) in Electronics and Communication Engineering — *2018 – 2022*

- **Academic Distinction:** Graduated with First Class Honours | Coursework: Data Structures, Database Systems, Python, Mathematics.
