Professional Summary

Azure Data Engineer with **3.9 years of experience** at Cognizant, specializing in building and modernizing cloud data pipelines with **Azure Data Factory (ADF)**, **Azure Databricks**, **PySpark**, and **Delta Lake**. Direct life sciences client experience (Amgen) engineering commercial data integration pipelines, managing Master Data Management (MDM) workflows, and migrating 40+ legacy ETL jobs to Medallion Lakehouses. Certified Databricks Data Engineer Associate and Microsoft Power BI Data Analyst. Currently serving official notice period with immediate 30-day joining availability in Hyderabad.

Technical Skills

Cloud Data & Lakehouse: Azure Data Factory (ADF), Azure Databricks, Apache Spark, PySpark, Delta Lake (Bronze/Silver/Gold), Auto Loader
Storage & Databases: Azure Data Lake Storage Gen2 (ADLS Gen2), PostgreSQL, Azure SQL Database, Oracle, Databricks SQL
Master Data & Governance: Master Data Management (MDM Match/Merge, Golden Records), Unity Catalog (Lineage, RBAC), GxP Compliance
Programming & Query: Python, PySpark, SQL, Shell Scripting, Git, GitHub, Azure DevOps CI/CD Pipelines
Orchestration & Analytics: Apache Airflow (Python DAGs), Microsoft Power BI (DAX, Dimensional Modeling), Agile/Scrum

Professional Experience

Cognizant Technology Solutions — **Chennai / Hyderabad, India**
Associate - Azure Data Engineer (Client: Amgen - Life Sciences) — *Oct 2025 – Present*

- **Accelerated pipeline execution by 40%** and reduced cloud compute spend by **~30%** by migrating 40+ legacy Informatica ETL workflows to Azure Databricks Delta Lake and PySpark with 100% verified data parity.
- **Architected scalable Medallion Lakehouse pipelines** across Bronze, Silver, and Gold tiers, ingesting high-throughput transactional data feeds via Databricks Auto Loader (`cloudFiles`) with automated schema evolution.
- **Sustained 99.8% pipeline SLA uptime** by authoring modular Python Apache Airflow DAGs with automated retries, error isolation, and operational alerting across ADLS Gen2 storage tiers.
- **Enforced centralized data governance** using Databricks Unity Catalog for table and column-level access controls (RBAC), end-to-end data lineage tracking, and audit logging.

Cognizant Technology Solutions — **Chennai, India**
Programming Analyst - Data Engineer (Client: Amgen - Commercial MDM) — *Feb 2024 – Oct 2025*

- **Automated multi-source commercial data ingestion** into ADLS Gen2 using Azure Data Factory (ADF) pipelines and custom PySpark cleaning scripts, handling scheduled daily data feeds with automated alerting.
- **Eliminated ~15% duplicate records** across commercial master data entities by tuning Informatica MDM match-and-merge rule sets, survivorship logic, and trust scores to establish unified golden records.
- **Optimized analytical query performance by 25%** by conducting SQL profiling, designing partition strategies, and tuning broadcast joins across large analytical tables.
- **Built 6+ interactive Power BI dashboards** with optimized DAX calculations and star-schema dimensional models, enabling commercial stakeholders to track operational KPIs.

Cognizant Technology Solutions — **Chennai, India**
Programmer Analyst Trainee & GenC Intern — *Feb 2022 – Mar 2024*

- **Automated daily data extraction routines** using SQL scripts and shell automation to feed downstream analytics tables, reducing manual intervention across production batches.
- **Authored comprehensive technical documentation**, including source-to-target mapping (STTM) documents, data validation test suites, and data dictionary catalogs.

Verified Licenses & Certifications

Databricks Certified Data Engineer Associate | Databricks (Cred ID: 185421754 | Exp: Jun 2028)
Microsoft Certified: Power BI Data Analyst Associate (PL-300) | Microsoft
Microsoft Certified: Power Platform Fundamentals (PL-900) | Microsoft
SQL for Data Science | UC Davis / Coursera | **Data Modeling in Power BI** | Coursera

Education

Saveetha Engineering College — **Chennai, Tamil Nadu, India**
Bachelor of Engineering (B.E.) in Electronics and Communication Engineering — *2018 – 2022*

- **Academic Distinction:** Graduated with First Class Honours | Coursework: Data Structures, Database Systems, Python, Mathematics.
