Professional Summary

Certified Databricks Data Engineer Associate with **3.9 years of experience** at Cognizant, specializing in building, configuring, and optimizing cloud data pipelines using **Azure Databricks**, **PySpark**, and **Delta Lake**. Spearheaded the migration of 40+ legacy workflows to Databricks Medallion Lakehouses, accelerating execution times by **40%** and reducing cloud compute costs by **~30%**. Experienced across client requirements workshops, UAT validation, performance tuning, and cross-functional Agile delivery. Currently serving official notice period with immediate 30-day joining availability.

Technical Skills

Databricks & Spark Engine: Azure Databricks, Apache Spark, PySpark, Spark SQL, Delta Lake (ACID, Bronze/Silver/Gold), Auto Loader, Unity Catalog
Cloud Data Ecosystem: Azure Data Lake Storage Gen2 (ADLS Gen2), Azure Data Factory (ADF), Apache Airflow, AWS (S3, EC2), Azure Key Vault
Data Engineering & ETL: Batch/Streaming Ingestion, Schema Evolution, Partitioning, Z-Ordering, Data Parity Verification, UAT Testing
Languages & Querying: Python, PySpark, SQL (Databricks SQL, PostgreSQL, Oracle, T-SQL), Shell Scripting
Development & Tools: Git, GitHub, Azure DevOps CI/CD, JIRA, Confluence, Microsoft Power BI (DAX, Star Schema)

Professional Experience

Cognizant Technology Solutions — **Chennai / Hyderabad, India**
Associate - Azure Databricks Data Engineer — *Oct 2025 – Present*

- **Accelerated pipeline execution by 40%** and reduced cloud infrastructure compute spend by **~30%** by migrating 40+ legacy ETL workflows to Azure Databricks Delta Lake and PySpark with 100% verified data parity.
- **Engineered scalable Medallion Lakehouse architectures** across Bronze, Silver, and Gold tiers, ingesting high-volume transactional feeds using Databricks Auto Loader (`cloudFiles`) with automated schema evolution.
- **Sustained 99.8% pipeline SLA uptime** by developing modular Python Apache Airflow DAGs with automated retries, error isolation, and operational alerting across ADLS Gen2 storage tiers.
- **Configured unified governance** using Databricks Unity Catalog for table and column-level access controls (RBAC), data audit lineage, and centralized metadata management.

Cognizant Technology Solutions — **Chennai, India**
Programming Analyst - Data Engineer — *Feb 2024 – Oct 2025*

- **Automated multi-source data ingestion pipelines** into ADLS Gen2 using Azure Data Factory (ADF) and custom PySpark cleaning scripts, handling scheduled daily batches with zero manual intervention.
- **Optimized analytical query performance by 25%** by conducting SQL profiling, implementing optimal partition keys, and tuning broadcast joins across large analytical tables.
- **Validated data integrity and executed UAT** across critical client analytics deliverables, authoring automated reconciliation scripts to verify record counts, primary keys, and data checksums.
- **Built 6+ interactive Power BI dashboards** with optimized DAX calculations and star-schema dimensional models, presenting operational insights directly to enterprise client stakeholders.

Cognizant Technology Solutions — **Chennai, India**
Programmer Analyst Trainee & GenC Intern — *Feb 2022 – Mar 2024*

- **Automated daily data extraction routines** using SQL scripts and shell automation to feed downstream analytics tables, reducing batch processing turnaround time.
- **Authored comprehensive technical documentation**, including source-to-target mapping (STTM) documents, pipeline runbooks, and test validation matrices for enterprise client releases.

Verified Licenses & Certifications

Databricks Certified Data Engineer Associate | Databricks (Cred ID: 185421754 | Exp: Jun 2028)
Microsoft Certified: Power BI Data Analyst Associate (PL-300) | Microsoft
Microsoft Certified: Power Platform Fundamentals (PL-900) | Microsoft
SQL for Data Science | UC Davis / Coursera | **Data Modeling in Power BI** | Coursera

Education

Saveetha Engineering College — **Chennai, Tamil Nadu, India**
Bachelor of Engineering (B.E.) in Electronics and Communication Engineering — *2018 – 2022*

- **Academic Distinction:** Graduated with First Class Honours | Coursework: Data Structures, Database Systems, Python, Mathematics.
